STORY

You live on a small island surrounded on all sides by raging seas. It is the only island in the world — or at least, that's what its inhabitants think. In ages past, many a young hero set out across the waters in search of adventure and new lands, only to find leagues of empty ocean. In the end, the seafarers returned empty-handed. Could this tiny island really be all there is in the world?

You are the hero of this tale, an ordinary boy who has lived his whole life upon this tiny island.

C.G. ILLUSTRATION by Shintaro Majima

ESTARD ISLAND

As the hero of the tale, you live in the southern port of Fishbel. To the west is the town of Estard. Above the town is the castle where Prince Kiefer lives.

2

CAST OF CHARACTERS

The people who live in your village of Fishbel, the Prince of Estard, and all the people who live in the neighboring castle town are your acquaintances.

As a vibrant young inhabitant of this peaceful island, you will end up on a marvelous quest that owes its beginnings to the curiosity of a few friends...

The
HERO

An ordinary boy living in a tiny fishing village. Your father is counting on you to succeed him as a great fisherman. You're a bit too nice for your own good, and often get taken advantage of by your friend, Maribel.

Your Father

BORKANO

A highly regarded fisherman of Estard Island. When he leaves to fish, he's gone for days at a time, and your mother, Mollie, has to watch over things at home. He looks forward to having the chance to go fishing with you, but doesn't think you're ready yet.

Your Mother

MOLLIE

Your Mother protects the house when Borkano is away on fishing trips. While she hopes you'll someday become a strong-willed and brave man, she can't help but be concerned about your faintness of heart. She sometimes bothers you more than you'd like but it's just a sign of her affection for you.

Daughter of the boat owner of Fishbel

MARIBEL

Amitt's only daughter. She has a tendency to be meddlesome and think the whole world revolves around her. Nonetheless, she's a faithful friend to you and to Kiefer.

Prince of Estard

KIEFER

The heir to the throne of Estard. Caring little about his status as the next King, he's constantly talking of going on exciting travels, much to the dismay of his caretakers. His adventurous spirit makes him unable to resist sneaking out of the castle, often to come to your house to play. He thinks of you as a brother, and the two of you have made many a fond memory together.

Your Uncle

HONDORA

Borkano's younger brother lives a dissolute life. He often visits your home, but usually it is to borrow gold. He seems unaware of how dubious his reputation is among the people he knows.

The King of Estard

BURNS

Burns is a wise ruler, fully trusted by the populace. His strong will helps him quickly overcome all difficulties, except, of course, the matter of Prince Kiefer, for which he can only throw up his hands.

The Princess of Estard

LEESA

She lost her mother at a young age, and her father had little time to take care of her while attending to his duties as the King of the land. Perhaps this is why she depends on her older brother Kiefer so much. She is very ladylike, enjoying birds and flowers. She can be found living comfortably in the castle.

Dejan Dancer

AIRA

A fine sword fighter with incredible feminine charm to boot. Raised by the Deja Tribe, her dancing skills are second to none. But a sorrowful glint in her eyes suggests a troubled past.

Mysterious Boy

GABO

A boy raised in the wild, full of innocence and warmth. Despite his youth, he has incredible survival instincts, is lightning fast, and can run circles around the fiercest of monsters. Little is known about his background.

Mythic Hero

MELVIN

A warrior who fought alongside God in the age of the Demon Lord, when today's peace was still but a distant dream. The result of that battle, and Melvin's whereabouts thereafter, remain a mystery to this very day. He would surely prove a worthy traveling companion if you manage to make his acquaintance.

BEFORE SETTING OUT

You will become the Hero of a long, adventurous journey. To prepare yourself, the first thing you need to know about is the "Adventure Journal."

BEGINNING AN ADVENTURE

Before you begin an adventure, you must first create an "Adventure Journal" to record your travels. The Adventure Journal records the current strength levels of all characters, inventory of equipment, and all other events that have occurred on your adventure.

CREATING AN "ADVENTURE JOURNAL"

Insert a Memory Card into MEMORY CARD slot 1 or MEMORY CARD slot 2 of your PlayStation. Next, Select "New Game" from the menu.

When you select "New Game," the name entry screen for the hero will appear. Here you can enter a name of your liking of up to eight characters. Use the directional button to select characters, the X button to input, and the O button to go back one space. Select "Done" to finish inputting your name. After you finish inputting your name, you will select the MEMORY CARD slot in which to write the Adventure Journal.

FINISHING AN ADVENTURE

● Don't forget to record your adventures at a Temple.

Before taking a break from your adventures, be sure and go to a Temple or other location containing an Adventure Journal and record your progress. Speak with the priest or master of the Temple. Then, select "Save" and they will record your progress into the Adventure Journal.

- ▶ When you record into the Adventure Journal, you're saving your adventures.

● Select an Adventure Journal when recording your progress.

When you record your progress, first select MEMORY CARD slot 1 or MEMORY CARD slot 2, and then select an Adventure Journal to write to. When you choose an Adventure Journal to write to, you will be asked if it is okay to overwrite the previous information in the Adventure Journal.

● How do I continue an adventure?

Select "Continue" from the Adventure Journal menu. When you select the Adventure Journal you wish to start from, you will begin from the last moment that you made a record.

- ▶ The priest will greet you when you return to the Temple. Now it's time to get back to your adventure!

HOW DO I DELETE AN ADVENTURE JOURNAL?

Select "Delete File" from the Adventure Journal menu, and select the Adventure Journal you wish to delete. Be careful! Once an Adventure Journal is deleted, it cannot be retrieved.

5

BEGINNING YOUR ADVENTURE!

Now it is time to begin your adventure! Here we explain how to control the 3D map, your window into the world of adventure, through the use of screen shots.

3D ALLOWS YOU TO "FEEL" THE LANDSCAPE.

● Try rotating the 3D map

First, get accustomed to the feel of the 3D map. Rotate the map to see how your character is centered within it. You may find something new! In some places, such as the Field and caves, you cannot rotate the map.

L1 BUTTON
L2 BUTTON
Rotate Left

R1 BUTTON
R2 BUTTON

Rotate Right

● Use the  button to check your surroundings

Once you have tried the Rotate button, try pressing the  button to widen your view of the map. This will give you a general idea of the area. This is helpful when you are not sure what

direction you are facing.

In places such as the Field and inside buildings, you cannot use the  button.

▲ Rotate left from the widened view.

▲ You can see that rocks lie in this direction.

Widening your view gives you a bigger picture of the town. You can also rotate your view in this mode.

▲ Rotate right from the widened view. Oh, I see a ship!

INSIDE BUILDINGS AND CAVES

Inside buildings and caves, the angle of your view can sometimes hide entrances. Try rotating your map. However, you cannot widen your view in areas that have ceilings.

▲ Huh? Just how did I get in here, anyway?

▲ Let's rotate things a bit. Oh! The entrance was right there!

● **Items hidden behind buildings and in shadows.**

Don't just use Rotate to check your position, try rotating in all kinds of areas. You may find

treasure chests and doors behind buildings and hidden in the shadows.

▲ *What's behind the building?*

▲ *Let's just rotate the map to find out. There's a barrel!*

▲ *Check out the castle. What a magnificent staircase! How about the back? Rotate the screen.*

▲ *Wow! A staircase below a staircase! You can't find this unless you rotate.*

● **The Action Button is good for everything!**

Before bothering to search for the correct command, try using the Action Button. In many situations it will automatically take the correct

Action. On the 3D maps and in castles, you can speed along solely with the use of the Action Button.

TALK

Face a person you wish to talk to, and press the triangle button to talk. Also use it to buy items from shops and stay at inns.

- ▶ *When you want to talk to townfolk, just approach them and use the  button.*

- ▶ *Use the same button to talk across tables and desks.*

CHECK

Use the Action Button to check the inside of dressers and treasure chests. Use it to check anything at all—drawers, bookshelves, signs, well interiors, and more.

- ▶ *You can even climb inside wells using the Action Button.*

- ▼ *Check out anything you like. You may find something useful.*

PICK UP / THROW

Use the Action Button to pick up items like vases and flowers. Push it again to throw the item.

1 PICK UP ITEM

▲ Push the Action Button once to pick up the vase.

2 MOVE WITH ITEM

▲ Use the directional button to walk while holding the item above your head.

3 THROW ITEM

▲ Push the button again to throw it! And the vase breaks.

4 FIND GOLD!

▲ Not bad!

6

CASTLES AND TOWNS

There are many buildings inside the castles and towns, including Temples, shops, and other places convenient to travelers. Let's have a look inside!

Temples

Here lies the Adventure Journal The servants of God extend a helping hand to the young travelers. If for nothing else, you must come here for the Adventure Journals. Also stop by when your friends have run out of power, or if you need other assistance.

- **Save**

- **End**

Item Shops, Weapon Shops, Armor Shops

Get needed items Before leaving on your adventure, stop by the shops and get the items and equipment that you need. The selection is different from store to store. Some shops are general stores, selling items, weapons, armor, and sometimes even rare artifacts. You can sell unneeded items at any shop.

7

BASIC COMMANDS

As the adventure progresses, it is important to make full use of the commands. Here is a list of the commands that you use during movement.

MAIN WINDOW

Let's learn the Six Basic Commands.

STATUS WINDOW

Status Window Shows HP, MP, and Levels for all party members.

THE SIX BASIC COMMANDS

Use these six commands while you are not in combat. Push the **X** button to view the window for these six commands. Use the directional button to select a command, and push the **X** button again to input a command.

TALK

This command allows you to talk to people directly in front of you, and is the same as pushing the Action Button. When nobody is in front of you, you will talk among your own party. If you're worried about something, or you want to see how your friends are doing, try talking to them. They'll usually be happy you did.

◀ Talk to people in front of you with the Action Button.

▶ Talk to your friends when nobody is in front of you.

ITEM

Check and arrange your party's items. First select whose items to view, then select an item, and finally select what to do with the item.

◆ Choosing who will hold the items

Items that are currently equipped are marked with "E." Placing the cursor on other items will tell you how the character Stats will change when equipped. Each party member can hold up to twelve items. If you try to give a player with a full inventory an item, the item will trade with the item in the spot where you place the cursor.

◀ Put the cursor on an item, and a window appears showing the item type and abilities.

◆ Using the Bag

The quantity of each item is shown in the Bag. Any type of item can be placed in the Bag. When there are more items than can fit into one page, use the directional button to scroll between pages.

ITEM SUB COMMANDS

Use the selected item. For healing items, also select which ally to use it on.

• Give

EQUIPMENT

Shows items equipped.

GOLD

The global monetary unit. Displays the total gold for the whole party.

STATS

◆ **HP (Hit Points)**

Represents the character's remaining physical strength. Enemy attacks gradually wear down the HP, and when the HP reaches 0, the character dies.

◆ **MP (Magic Points)**

Represents the character's energy used for magic. Each time you cast a spell, the MP lowers slightly. When the MP reaches 0, that character cannot use spells.

◆ **Level (Lv)**

◆ **Strength (STR)**

Physical strength. The larger this number, the higher the Attack rating, and the more damage inflicted upon enemies during battle.

◆ **Agility (AGL)**

Speed of movement. The higher the number, the higher the probability of being able to attack first during combat.

◆ **Guard (GRD)**

The sturdiness of the character's body. Has a close relationship to "Defense".

◆ **Intelligence (INT)**

The mental prowess of the character.

◆ **Appearance (APR)**

The physical beauty of the character. Changes depending on the equipped items. It is unimportant for most battles, but surely something good will happen if this rating is high.

◆ **Attack (ATK)**

The sum of the "Strength" rating and the attack power of the equipped items. The larger the Attack rating is, the more damage inflicted upon enemies.

◆ **Defense (DEF)**

How well a character guards against attacks. The larger this rating is, the less damage received by the character each attack.

◆ **Max HP (Hit Points)**

The maximum amount of Hit Points. A stay at an Inn will restore your HP to this level. Each new Level reached raises your Max HP.

◆ **Max MP (Magic Points)**

The maximum amount of Magic Points. A stay at an Inn will restore your MP to this level. Each new Level reached raises your Max MP.

◆ **Ex (Experience Points)**

The points gained each time the character defeats a monster. Collecting Experience Points will raise the character's Level.

CAST

Use this command for Spells and Skills while you're not in combat. Choose an ally, and then a Spell menu will appear. Place the cursor on a Spell or Skill, and you can see MP needed and MP remaining, and the effect of the Spell or Skill. (When the Spell/Skill window is full, use the directional button to flip between pages). Be sure to use spells like Heal as soon as they are needed.

▲ Only the spells that you can use while moving are listed. Battle spells are not shown.

LOOK

When there is something you wish to check in front of you, "Look" does the same thing as the Action Button. If there is nothing in front of you, the character will check the ground.

▲ The difference between the Action Button and "Look" is that "Look" will check barrels or vases without breaking them.

◀ When there is nothing in front of you, the character will check the ground.

PLAN

Change the formation of your party, and adjust a number of other variables.

◀ Make full use of all six Sub Commands.

- **Reorder**
Choose the order of your party, starting from front. The lead character takes the brunt of the damage during battle. Place the character with the lowest HP and defense power in the rear.
- **Tidy Item**
This will place all items other than equipment and other important items into the Bag. You can organize a character's items individually, or organize the entire party's items at once.
- **Tidy Bag**
This will organize the items in your Bag either alphabetically or by type.

10

ANCIENT SHARDS OF ESTARD

The shard that you've stumbled upon unlocks a new destiny. Find new Shards to expand the worlds available to explore.

FIND THE SHARDS

As you explore the Island of Estard, you will happen across a strange Shard. It seems to be a fragment of a large tablet. But why was the tablet broken into pieces in the first place? And what secrets lay behind it?

FIND THE TEMPLE RUINS!

Somewhere on the island are the ruins of a secret Temple. In this Temple is a set of altars upon which the Shards fit. Finding the Temple Ruins should be at the top of your list of priorities.

▲ *Inside the Temple Ruins, you will find a set of altars. Does this mean there are enough shards in existence to fill all the altars?*

COMPLETE THE TABLETS WITH THE MYSTERIOUS SHARDS

ADVICE ON HOW TO FIT THE SHARDS

When you have selected a Shard to fit into the altar, the shadow of the Shard will show over the inlay in the altar. The shadow shows you where the Shard will fit when lowered into the inlay, so use the shadow as a guide to determine the correct positioning.

**Each completed set of
Shards will unlock the doorway
to a New World!**

- ▲ A bright light sparkles and the doorway to a new adventure opens!

11

- **Skill**

Use a Skill known by the character. Skills are arranged by type, just like Spells.

- **Item**

Use any item that the character is holding. Be careful! Items inside the Bag cannot be used during combat.

- **Parry**

The character will defend against enemy attack. Reduces the amount of damage inflicted by the enemy's direct attacks.

- **Equip**

You can equip different Weapons, Armor and other items even during battle. Equip the best items depending on the types of enemies and the status of your party.

PLAN

As your party gets larger, it becomes difficult to command each ally individually. Use the Plan command to select an overall battle strategy for each character. Your friends will follow these general orders, choosing specific actions that fit into the battle plan as they see fit. But it isn't all just giving orders—you also must decide what you do during battle!

◆ **Selecting a Plan**

Choose "Plan" to display the present plan settings for each member of your party. Choose an ally to change his or her Plan. Choose "All" to give the same Plan to the entire party.

◆ **Observe the techniques of allies**

When your allies are left to fight as they like, they will automatically choose strategies which are effective against the enemy. Use this to learn effective strategies and weak points of enemies.

◆ **Change Plan frequently**

Different areas have different monsters. Constantly strive to keep your Plan settings set effectively according to your surroundings. You can even change Plans at the beginning of each turn during a battle.

▲ Order different plans for each character.

◆ Six different Plan settings

The following six settings are the different Plan settings. Check the meaning of each Plan, and adjust according to the types of enemies you have encountered and the status of your party.

THE PLAN OPTIONS

• Charge

Character concentrates on defeating enemies as quickly as possible, without holding back in any way. The character does not consider the amount of MP used for each spell, or his or her remaining MP.

• No Fight

A character given this order does not participate in attacks. He or she uses Restore and Support spells while leaving the fighting to the rest of the party.

• Heal

The character pays most attention to the party's total HP, putting the highest priority on allies' lives. A good tactic if you're worried about being defeated.

• Normal

Character takes a balanced approach to offense and defense. Character uses spells and abilities as needed. This is the default Plan for all characters.

• No Magic

The character uses absolutely no spells. The character makes full use of restore abilities, defensive strategies, and special abilities. Choose this tactic when you wish to save MP.

• Manual

Allows you to give individual commands to the character each turn using the Command Sub Window.

TALK

Talk to your allies during combat. Choose “talk” to hear strategic advice and other useful information from your allies. If you talk with your friends too much, your enemies will begin their attack.

FLEE

If you come across enemies that are too strong for you, use the “Flee” command to stop fighting and try to run away. However, you cannot always escape.

▲ Don't get too confident! Run before your party is defeated.

ALWAYS CHECK HEALTH LEVELS!

You never know when a battle will begin. While moving on the map, check health levels of all party members, and be sure to treat injuries and poison. Allies with health problems will not fight as well as you expect.

◆ **When poisoned**

The character loses HP each step he or she takes. Go to a Temple, or use Spells or Items for treatment.

◆ **When paralyzed**

When paralyzed, a character freezes and will be unable to do anything. Eventually the character will awaken without help, but certain Spells and Items can wake the character up immediately.

◆ **When cursed**

Something terrible might happen to a cursed ally. Go to a Temple to have the curse lifted.

◆ **Critical Condition**

When a character's HP gets low, the HP status letters turn yellow. Use Herbs or Heal Spells to heal the character.

◆ **Death**

This happens when HP reaches 0. The Status will display in red and the character is put in a coffin. Return to a Temple to revive the character as soon as possible.

WHAT IF THE ENTIRE PARTY IS DEFEATED?

When the HP of every party member reaches 0, your party has been defeated.

Your gold reserves will be reduced by half when defeated. Be sure to keep unneeded gold in the Gold Bank because deposited gold is not subject to this reduction.

SPELLS AND SKILLS

One of the most exciting parts of your adventure is gradually expanding your repertoire of Spells and Skills. This section defines the difference between Spells and Skills, explains what types exist, and teaches you how to learn them.

- **What is a Spell?**

The many types of Spells are all cast with MP (Magic Points). There are attack Spells, restoration Spells, and many others. Even without a class, your MP maximum will raise as you go up levels, and you will learn basic Spells. However, advanced Spells can only be mastered by training as one of the Spell experts, such as the Mage or Monk.

- **What is a Skill?**

When you belong to certain classes, you will learn Skills with special effects as you gain experience. Some Skills require MP.

- **Types of Spells and Skills**

Just like commands, the Spells and Skills you can use during movement around the map and during combat are different. Also, during battle there are three types of Spells and Skills: those that inflict damage upon the enemy, those that restore powers, and those that support combat.

- **Check the effects of each Spell and Skill**

When you select a Spell or Skill in the window, the effect, required MP, and total character MP are displayed.

- **Learning Spells and Skills**

Without belonging to a class, one will only learn basic Spells and Skills. In order to learn more advanced Spells, you must go to Dharma Temple, choose a class (up to one per character at any time), and gain experience in that class. Each class has its own unique Spells and Skills.

- **Raise your Expertise Level**

In order to learn Spells and Skills, you must go up levels within the class whose Skills you wish to learn. After mastering a number of different classes, you can enter more advanced classes, and learn more powerful Spells and Skills.

CLASSES AND CHANGING CLASSES

You and your allies begin without belonging to any class, but somewhere on your quest you will come across Dharma Temple, which presides over changes in class.

WHAT IS A CLASS?

When you and your allies begin your adventure, you are still youthful and naive, without an expertise to call your own. However, eventually you each will find your calling. Choose a class, train well, and you shall learn the spells and abilities that are the unique gifts of your chosen class.

◀ *Dharma Temple is a sacred place for determining how one will live his or her life.*

▶ *There are ten basic classes to choose from when you first come to the Temple. Which attracts you the most?*

Warrior	STR:	40	43
Fighter	ADL:	39	22
Mage	GRD:	18	18
Cleric	INT:	33	22
Dancer	APR:	22	22
Thief	ATK:	51	54
Bard	DEF:	48	48
Mariner	Max HP:	120	131
Shepherd	Max MP:	45	17
Jester	Master	*	—

SEARCH FOR DHARMA TEMPLE

In order to join a class, you must first seek out Dharma Temple, the body that presides over class changes. This mysterious Temple is the only place in the world where you can change classes.

THE TEN BASIC CLASSES

These are the classes you can join immediately after reaching Dharma Temple. Choose a class that fits your character's personality.

◆ **Warrior**

A master of the sword. A character who becomes a Warrior gains Strength and Max HP. Plays commanding role in combat.

◆ **Fighter**

Character gains Agility. Uses expertly-trained body in place of weapons. Learns extensive hand-to-hand techniques, and will occasionally crush enemies with a series of critical hits.

◆ **Mage**

Character gains Intelligence and Max MP, and begins learning Attack Spells. The Mage's Strength and Toughness are low, making a supportive, rear position most appropriate during combat.

◆ **Cleric**

Learns Restoration Spells, and is absolutely vital to any party. The Cleric is also a decent hand-to-hand fighter.

◆ **Dancer**

Character gains Agility and Appearance. A Dancer is adept at dodging enemy attacks, and learns dances that confuse enemies.

◆ **Thief**

Gains Agility. Learns to steal from enemies during combat. A Thief also learns spells and abilities useful for sniffing out things in caves and towers.

◆ **Bard**

Gains Intelligence and Appearance. Learns a variety of magical songs. Supports combatants from a rear position.

◆ **Mariner**

Gains GRD and Max HP. The Mariner is strong against water attacks, and learns abilities useful for travel across water.

◆ **Shepherd**

A character who becomes a Shepherd does not lose or gain any Stats to any recognizable degree. However, a Shepherd learns very unique Shepherd-only abilities.

◆ **Jester**

An unusual class in which all character Stats decrease except for Appearance, which raises greatly. If you're lucky, a Jester will bring a lot of excitement to combat, perhaps even getting monsters to roll with laughter.

COMBINE CLASSES FOR INCREASED POWERS

Even if you change classes down the line, you keep all abilities learned in the previous class. By gaining experience in a variety of classes, you can learn a variety of techniques.

● **Expertise Level**

Each Class is ranked by Expertise Levels. For example, a Warrior starts off as a "Beginner," and works up to "Veteran" and "General" through experience. Each Class has eight Expertise Levels. When you reach Expertise Level 8, you have mastered the Class.

▲ Check your Expertise Level with the Status screen. The eight stars for a mastered class are shown in gold!

● **Advanced Classes**

Make stronger characters by combining Basic Classes

After mastering a number of Basic Classes, you can combine your skills to qualify to join one or more of the Advanced Classes.

◆ **Advanced Classes: Examples**

Ranger (Warrior+Mage)

The Ranger combines the powers of the Warrior and Mage to create attacks of unparalleled ferocity. The Ranger's sword Abilities are backed by the power of magic.

Dragoon (Warrior+Fighter)

Combines the power of the Warrior with the agility of the Fighter. Imagine a Warrior that has the increased chances of Critical Hits, an ability learned from the Fighter. An expert combatant.

Sage (Cleric+Mage)

Uses advanced spells for both restoration and attacks. Uses a special technique of casting spells with minimal use of MP.

● Monster Classes

Classes/changing classes

Occasionally a monster will drop a “Monster Heart” after being defeated in battle. Get these Monster Hearts so you can choose Monster Classes. If you join a Monster Class, you will learn the spells and abilities of that type of monster, as well as gain the monsters special protections (against fire or ice, etc.).

◆ What kinds of monsters can you turn into?

You cannot join the class of every monster, but there are still many to choose from. Perhaps there are even Advanced Monster Classes?

▲ With a “Monster Heart,” you can feel the feelings of the monster and join its class!

● Professional Experience System

Learn useful spells and abilities in each class

In addition to learning Spells and Abilities as you gain Expertise Levels within a class, you can learn special types of Spells and abilities depending on what types of classes you have experience in.

For example, if you gain experience as a Warrior and then switch to a Thief, your experience allows you to learn ThiefHit. Even if started in the opposite order, first choosing the Thief and then switching to Warrior, you would gain the same technique because of your Professional Experience.

● Strive for Balanced Professional Experience

Thanks to the Professional Experience System, you do not always have to master each class you join. Combining some level of experience in two or more fields will allow you to learn spells and abilities that combine the experience of the two classes.

EXAMPLES OF TECHNIQUES LEARNED WITH THE PROFESSIONAL EXPERIENCE SYSTEM

Warrior + Thief	=	ThiefHit
Warrior + Dancer	=	SwordDanc
Fighter + Mariner	=	BigTrip
Cleric + Bard	=	HealSong
Dancer + Shepherd	=	RamDance

The order in which one gains experience in different fields does not matter. As long as you gain experience in a variety of fields, you will be able to learn a variety of spells and abilities. You may get so much experience that you'll forget about all the classes you belonged to in the past!

DIVERSIONS FROM YOUR ADVENTURE

Your quest is a difficult, uphill battle. But don't be afraid to take a break from your mission, and try some of the pleasant side games. You won't regret that you did.

CASINO

Try your luck!

Purchase tokens to play the Slots, Poker, or other games that strike your fancy. If you win more tokens, you can exchange them for items. Some items are exclusively available at casinos, so get out there and sharpen your gambling wits! But beware: King Burns warns that gambling addictions are hazardous to an adventurer's progress.

◀ A nearby casino. Many a traveler has forgotten his quest after entering the casino.

THE MEDAL KING'S CASTLE

The Secret collector of Medals

You will happen across TinyMedals on your quest. Somewhere in the world is a mysterious King who collects them. Whenever you have a few lying around bring them to him. Depending on how many medals you bring, he will share wonderful rare gifts with you.

THE MONSTER ENCYCLOPEDIA AND MONSTER PARK

Collect all the world's monsters!

When you get the Monster Encyclopedia, a record will be made of every monster you have encountered. Create a complete Monster Encyclopedia by seeking out all of the world's monsters! And, if you find Mr. Monster, he will teach you how to befriend monsters during combat! Monsters you befriend can live in Monster Park, where you can go see them any time!

Slime	Defeated: 24
	Dropped: None
	Cum. EXP: 24
	Cum. Gold: 24
	1/298

▲ A record is kept of every monster you encounter in the Monster Encyclopedia. Something good will undoubtedly happen if you complete it.

▲ Collect all the world's monsters! If you fill the Monster Park, you may get a reward!

IMMIGRANT TOWN

Create your own town!

Somewhere in the world, you will find an empty plain with a single lonely old man living on it. This man's dream is to create a town on this very spot. Help him realize his dream by telling people who are trying to start their lives anew about the old man. Then they will come to live in the new land, adding to the number of citizens of Immigrant Town!

◀ The town is influenced by the professions and birthplaces of the people who move there.

In order to trade Immigrant Town citizens, both your own memory card (with a Adventure Journal) and a friend's memory card (with his own Adventure Journal) are needed. A second memory card containing copied Adventure Journals cannot trade with the first.

► After your population has sufficiently grown, you can use your memory card to trade inhabitants with your friends.

TIPS ON EFFECTIVE ADVENTURING

On your quest you will face many dangers and puzzling mysteries. This section contains pointers that will help you to have a smooth, enjoyable adventure.

▼ Talk to people

Detective work is the most basic skill of any adventurer. It is vital to talk to as many people as possible. Even the same person may have different news for you once a situation has changed. If you find there is nothing you have not already heard, try making sure you have not missed talking to somebody. The key to every mystery can be found in something that somebody tells you.

▼ Use the button, L1 button, L2 button, R1 button, and R2 buttons to check your surroundings

When you reach a new town, first use the button to get an overview of the town. This should greatly help you find people to talk to and shops to shop at. Do not forget to use the L1 button, L2 button, R1 button and R2 button to check behind buildings. You may find hidden people or staircases in the shadows.

Check every corner carefully

Treasure chests are not the only places to find unusual items. Check anything, including vases and dressers. You may even find hints deep within wells, on bookshelves, or on signs or drawings. Be sure to investigate even the most slightly suspicious areas.

Take advantage of the Action Button

Use the action button to talk to people and check things while in the 3D map. The Action Button does whatever is needed without the use of menus. But be careful! You still need to use the Talk command to talk to your allies.

Remember to equip Weapons, Armor, and Accessories

A powerful weapon or suit of armor is useless if you forget to equip it. When you get a new item, use "Equip" to check the change in Stats, and equip the appropriate character. Some items have special effects, while others will curse the character when equipped. Feel free to experiment.

▼ Don't persist when you're too weak!

Do not keep fighting so stubbornly that your party is defeated. Use Flee if you think you will lose. When you begin your adventure, your Max HP is low, and the enemies' "Brutal Hits" can defeat you in one strike. Always make sure you have enough MP for restoration and escape magic, and keep a fresh supply of Herbs handy.

▼ I lost half my gold from a defeat! Guess I should've used the Gold Bank.

If your party is defeated, your gold is reduced by half. In addition, it will cost gold to revive your fallen comrades. Without gold, you cannot stay in Inns, or buy needed items and equipment. Be sure to store unneeded gold in the Bank.

▼ Make Frequent Entries into the Adventure Journal

Have you ever turned off the power without thinking first? Avoid the frustration of lost work! Anytime you arrive in a town, or are about to set off to a new area, be sure and visit a Temple and pray. You won't have a worry in the world as long as you make frequent records of your travels in the Adventure Journal.
